

# Ryan Lee

---

Sunnyvale, CA · (408) 218 4911 · ryanjlee@berkeley.edu · [ryazlee.github.io](https://github.com/ryazlee)

**Objective:** To learn & to contribute through diverse and exciting experiences.

## Education: University of California, Berkeley

- Bachelors in Computer Science | Expected Date of Graduation: May 2021
- 3.67 Technical GPA | 3.54 Overall GPA

## Technical Coursework

- |   |             |
|---|-------------|
| • CS70: Discrete Mathematics and Probability Theory   | Spring 2019 |
| • CS61C: Machine Structures                           | Spring 2019 |
| • CS61B: Data Structures                              | Fall 2018   |
| • EE16B: Designing Information Devices and Systems II | Fall 2018   |

## Experience

### Software Intern at Starbutter AI | Berkeley, CA

Jan 2019 - Present

- Updated various existing chat bots with customer specified features using AWS Lambda, Chalice, DynamoDB, and Google Dialogflow.
- Built a generic chatbot webhook for business users to create bots without the need of an engineer that provided user specified responses to intents.

### Software Intern at Omnivision Technologies | Santa Clara, CA

May 2018 - Aug 2018

- Developed various web applications using Django and MySQL to give non-technical corporate users an interface to create, read, update, and delete from company databases.
- Wrote various automation testing scripts for testing other web applications functionalities using django automated testing, selenium, and pytest.

### Marketing Intern at Tegile Systems | Newark, CA

Jun 2015 - Aug 2015

- Enabled technical understanding within customer base by creating product overview and support videos using Apple Motion & Apple Final Cut Pro X software programs.
- Practiced creativity by explaining technical concepts through easy-to-understand support videos.

## Projects

### Wrestler's Portal iOS Application

Jun 2018 - Present

- Designed an iOS Application to send push notifications to subscribed users to alert wrestlers of upcoming matches/tournaments.
- Used Swift4 for the frontend, Apple Cloudkit for the database, and Node.js for the backend.

### Wrestling Tournament Administration Software

Oct 2017 - Present

- Applied computer science to wrestling by developing the backend for software to host wrestling tournaments using HTML, an offline server, and Java.

## Extracurricular

### CS 61B Academic Intern | Berkeley, CA

Jan 2019 - Present

- Mentored and consulted Spring CS 61B (Data Structures) students with lecture material and Java by assisting during lab and office hours.

### Tech Chair at Optimir Consulting | Berkeley, CA

Aug 2017 - Jan 2019

- Manage and keep the Optimir Consulting public website up to date.

## Skills

Python · Java · Git · HTML · CSS · Javascript · JQuery · Swift · Apple Cloudkit · Full Stack Web Dev · Software Testing · Django · iOS Dev · Consulting · Final Cut Pro X · ChatBots · AWS · Dialogflow
